

```
pForwardMM(1400, 0);
turnTo(90);
pForward(140, 90, true, OUTBALL,70);
pForward(-450, 90, true, NOBALL);
turnTo(-90);
guoGan();
pForward(200, -90, true, NOBALL,20);
turnTo(-140);
pForward(1200, -140, true, NOBALL);
corner();
turnTo(-70);
pForwardMillisecond(-100, 2000, -70, false);
```

Bye ~

⊙ So that's ALL! I need to compose my music and write my novel later. I believe you 3 can solve all problems, UH huh? So don't let me down!

— TZY

5/8 Diary (2.6). [before competition]

Structure: Comb the structure composition of the front roller. Semi-active fixed. so that roller can move up and down to improve the efficiency.

The thing we need to do is practising & cultivating tacit understanding. Good luck in Hang Zhou!
